Drawings

The following changes to the drawings have been approved by the examiner:

The numeral "22" in Fig. 2 should be -- 26 --. See reproduced figures below wherein the drawing on the left identifies the error and the drawing on the right shows the correction. In order to avoid abandonment of the application, applicant must make this drawing change.

FIG. 2

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement sheets which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments section, or remarks, section of the amendment paper. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). A replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one

figure is being amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheet(s) must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

United States Patent Application Publication No. 2002/0018717 A1 (Dailey hereinafter) shows a means for cooling the leading edge of an airfoil of a turbine blade comprising a mid-chord passage 26 formed in the airfoil flowing a coolant, a wall defining the leading edge 28 of the airfoil, a plurality of longitudinally spaced orifices 36

Art Unit: 3745

formed in the wall connecting the mid-chord passage 26 to a longitudinal plenum 34 formed in the wall, an additional plurality of longitudinally spaced orifices 38 formed in the wall downstream of the plurality of orifices 36, wherein the coolant from the mid-chord passage 26 is diffused before exiting the airfoil (see paragraph 0016).

Dailey does not teach or suggest a plurality of rows and columns of longitudinally extending grooves formed in the outer surface of the wall at the leading edge of the airfoil.

United States Patent No. 6,210,112 (Tabbitta et al. hereinafter) shows an airfoil leading edge having a trench 18 with a plurality of cooling apertures 38 extending along the spanwise direction.

In the examiner's opinion, one having ordinary skill in the art at the time the invention was made may have found it obvious to utilize a plurality of columns of trenches in the leading edge of Dailey, however, the additional requirement of a plurality of rows of grooves is not taught nor suggested by any of the cited references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
